Anthony M Flores 215-237-2218 aflores7@stanford.edu

EDUCATION Stanford University Stanford, CA

> Major: Physics (PhD) Sep 2019 – Present

GPA: 3.93 Expected Graduation: Spring 2025

Johns Hopkins University Baltimore, MD

Majors: Physics (B.S.), Applied Mathematics and Statistics Aug 2015 - May 2019

Minor: Mathematics

GPA: 3.96 Major GPA: 3.98 Graduated: May 2019

RESEARCH **Graduate Student Researcher** Stanford University Jan 2020 – Present **EXPERIENCE** Researcher, Astrophysics and Cosmology

X-ray imaging and spectroscopic analyses of high redshift galaxy clusters to determine

dynamic, thermodynamic, and chemical properties and evolutionary history

Graduate Student Research Project Stanford University Rotation Project, Cosmology Sep 2019 – Jan 2020

Calibration of photometric redshifts using the DESI spectroscopic mock sample. Applicable

for future analysis in DES/LSST

Undergraduate Student Research Project TU Dortmund

Research Internship, Astroparticle Physics May 2018 – August 2018

Developed neural network reconstruction techniques for IceCube Neutrino events

Undergraduate Student Research Project Johns Hopkins University

Research Project, Extragalactic Astronomy 2016 - 2018

Identification of weak or obscure AGN, derived physically meaningful quantities from

SDSS-IV MaNGA galaxies' spectra and multi-wavelength observations

WORK **Stanford University** Stanford, CA

Teaching Assistant, PHYS 100/301 (Obs. Astro. Lab) **EXPERIENCE** Spring 2022, 2023, 2024

> *Teaching Assistant, PHYS 41 (Mechanics)* Spring 2021

> Grader, PHYS 160/260 (Intro to Stel. and Gal. Astrophysics) Winter 2021

Johns Hopkins University Baltimore, MD Learning Assistant, Classical Mechanics I Fall 2018

Teaching Assistant, Introduction to Statistics Spring 2018 Teaching Assistant, Lin. Alg./Diff. Eq. Spring 2017

Fall 2016 Learning Assistant, General Physics Laboratory I

Summer Science Program Socorro, NM *Teaching Assistant (Student in 2014)* Summer 2019

Teaching assistant at intensive High School research program to calculate orbital

characteristics of near-Earth asteroids

AWARDS & **NASA FINESST Award** July 2023 HONORS

Future Investigator in NASA Earth and Space Sciences and Technology -

The Rise of Giants: Tracing the Evolution of Galaxy Clusters from Their Cosmic Origins

Paul H. Kirkpatrick Teaching Award Spring 2022 Stanford University Dept. of Physics

Honorable Mention, NSF GRFP

April 2019

National Science Foundation

Sigma Pi Sigma National Honor Society

Spring 2018 – Present

Nominated by the Johns Hopkins University Dept. of Physics and Astronomy

DAAD RISE Scholar

Summer 2018

Awarded by the German Academic Exchange Service (DAAD)
Stipend and travel subsidy to conduct Astrophysics research at TU Dortmund

OUTREACH

SSP Connect Mentoring Program

2020 – Present

Committee Member, Volunteer Mentor

Online High School mentorship program focusing on relationship building, professional networking, and application assistance, particularly for underrepresented and first-generation students. Design and lead mentor/mentee development workshops, conduct one-on-one and group mentoring.

KIPAC Stargazing Committee

2022-Present

Organize and lead stargazing and outreach events at the Stanford Student Observatory. Develop programming for scientists, members of the public, and college/pre-college students to increase engagement in Astronomy and STEM. Train and certify new observers.

Stanford PIE Program

2020-2022

Student Mentor, Stanford Physics, Identity, and Equity Program
Engagement and mentoring program designed to mitigate barriers for underrepresented students looking to pursue doctoral degrees in Physics. Participated in panels and workshops for students and conducted one-on-one mentoring.

NATIONAL CLUBS & SOCIETIES

Treasurer, Vice President, President, JHU SPS

2016 - 2019

Society of Physics Students, Johns Hopkins University Chapter

Founding Member, Treasurer, JHU SEDS

2018 - 2019

Students for the Exploration and Development of Space, Johns Hopkins University Chapter
